

DANTE SUMMER FESTIVAL 2020 - COVID-19

Steps we are taking to ensure the safety of our musicians and guests:

- Audience capacity is limited to between 20-30 depending on group sizes
- Audience are reminded to follow government social distancing guidelines and to limit social interaction outside their own household groups
- The large double doors and windows will be open to maximise ventilation
- Chairs will be arranged with at least a metre between groups
- Audience are requested to wear face coverings while inside
- Hand sanitiser will be available at the entrance
- Musicians will be onstage before the audience enter so they can be socially distanced from the audience
- Audience will be seated in turn from the front row working back, and will be asked to leave starting from the back. Please follow instructions from the stewards.
- Chairs, door handles and common touch points will be wiped down before and after each concert
- Audience are asked to bring their own drinks and refreshments, to have outside, and to take all litter away
- Audience names will be recorded for contact tracing purposes
- As the concerts are short without an interval, need for toilets should be reduced; but the toilet in the Barn will be available, frequently cleaned and provided with hand sanitiser and paper towels.
